

Task 2

Can you list five words associated with an environmental data scientist and put these in a **wordsearch**? Here are my examples words and wordsearch - see if you can find all the words (the answer is at the end of the presentation).

Words to find:

1. Curious

2. Explorer

3. World

4. Discover

5. Plants

A	P	Z	V	E	C	X	Z	D	S
E	V	X	G	X	D	E	U	I	W
X	R	W	H	P	K	J	C	E	R
P	P	Q	B	L	P	B	V	V	E
L	I	C	U	R	I	O	U	S	V
O	O	I	A	E	W	E	P	T	O
R	Z	K	T	E	O	O	U	N	C
E	N	F	F	O	I	F	R	A	S
R	B	Q	I	U	J	G	O	L	I
E	P	L	O	F	L	J	H	P	D

Hints for making a wordsearch:

1. Use a ruler to draw a grid 10 x 10 squares about 1 cm each (I've made a grid for you on the next page in case you want to skip this step).
2. Write down five words to find.
3. Find a few common/shared letters between the words (e.g. world ends in D and discover starts with D).
4. Put the words in the wordsearch with shared letters where possible .
5. Add random surrounding letters to fill in all the squares .
6. Give to a friend to complete!

My five words which describe an environmental data scientist are:

1.

2.

3.

4.

5.

[illegible]
